A Message to Our Friends

WE HOPE THIS NEW PRICE-LIST will meet with your approval. It should be considered as a supplement to our large and colorful Catalog published a year ago, and as such it will prove to be of value to Rose-growers everywhere.

In addition to our own Rose records, we have taken special care to check all descriptions with "Modern Roses" and other sources of reliable information, thus insuring the accuracy of descriptive statements.

Our business was established more than fourteen years ago. During that time we have shipped plants to every State in the Union, to Canada, and across the seas. Today those plants are growing and giving entire satisfaction to thousands of customers, many of whom have been with us from the first year of our venture.

A special "Service Department" is maintained for the convenience of our friends. You are invited to consult us (without cost) regarding the problems that may arise in your gardening efforts. This will apply to shrubs, trees, perennials, and bulbs, as well as to Roses.

Please note also that our prices have been made as low as possible, yet we still maintain the quality of the plants we send you. Good plants are worth the price asked; poor plants are not worth anything. So we put **quality first**, and then furnish this high quality at the lowest possible rate.

This price-list (Spring, 1934) cancels all prices in any of our former catalogs, and purchasers should be governed by the prices in this edition. Our larger Catalog, showing 56 Roses in natural colors, will be mailed on request.

Glenco Grass Seed Mixture

This Grass Seed is packed specially for us. It is of the highest quality and is made up to give satisfaction rather than profit. It will produce a perfect lawn. Being pure and clean to the last seed, it has no equal. Compare this Analysis with others.

Analysis: Kentucky Blue Grass; Red-Top; Sheep's Fescue; Domestic Rye Grass; 3 per cent White Clover; Inert 21 per cent; Weeds 1 per cent.

1-lb. bag 30 cts.; 2-lb. bag 60 cts.; 3-lb. bag 85 cts.; 5-lb. bag \$1.40; 10-lb. bag \$2.75; 100-lb. bag \$25, by freight.

Add 5 cts. per pound postage for the first pound; 2 cts. for each additional pound.

Selected Roses for Select Gardens

Amelia Earhart. HT.

Plant Patent No. 63

Greatly improved Souvenir de Claudius Pernet. A new yellow Rose destined to great popularity. Very large, handsome flowers may be expected from this new and wonderful creation. A beauty unsurpassed in Rosedom. Order early and shipment will be made at the proper planting time. (See color illustration on first cover.)

No. 1 plants, \$2 each

Countess Vandal. HT.

Plant Patent No. 38

The long, tapered bud reminds one of the modern feminine fashion. Bronze and gold emerge from a sheath of green sepals; slowly the bud unfurls, the reverse of petals being copper gradually turning to orange-carmine on gold base, and the inside a blend of cream-salmon and blush-pink overlaid with a cast of golden amber. Delicately perfumed. The sensation of 1932 and winner of many foreign prizes. One of our best sellers in 1933.

No. 1 plants, \$1.50 each

Mary Hart (Red Talisman). HT.

Plant Patent No. 8

A garnet-red Talisman without yellow markings, an unprecedented feature in the many Talisman sports, the color lasting for many days. As the bud begins to show color it is blood-red, gradually lightening to a sparkling velvety garnet. Plant upright, with generous blooms.

No. 1 plants, \$1.50 each

Governor Alfred E. Smith. HT.

Plant Patent No. 62

A Rose that should be in every garden. Large salmon and gold blooms, rounded like a "Bomb" peony.

No. 1 plants, \$2 each

Souvenir. HT.

Plant Patent No. 25

A golden Talisman, and the best of many yellow varieties of that now-famous Rose. Bud is yellow, showing deep gold in the center. The opening bloom is glistening buttercup-yellow, little affected by sunshine or heat. Blooms singly on erect stems. Delicately perfumed.

No. 1 plants, \$1 each

Ambassador. HT.

Plant Patent No. 11

Talisman type. Bud large, long-pointed; flower large, very double, bronzesalmon, fragrant. Profuse bloomer.

No. 1 plants, \$1 each

Edith Krause. HT.

At 1932 European Rose Shows, Edith Krause was unanimously crowned the most beautiful white Rose to date. The large bud, carried on the long, stiff stem, shows first a greenish hue which disappears as the first petals unfurl; the large open bloom is a shining pure white. Most beautiful white Rose in our test-gardens at this time.

No. 1 plants, \$1.50 each

Louise Krause. HT.

Glistening yellow Rose with orange tint; large, full, and fragrant. We consider it one of the best acquisitions of recent years. Long stems for cutting. Handsome, strong foliage.

No. 1 plants, \$2 each

Max Krause. HT.

Probably the best yellow Rose of the year for outdoor use. A gold that stays gold. Long bud and cup-formed bloom of great substance freely borne on a long stem. Unusually resistant to rose troubles.

No. 1 plants, \$2 each

Aroma

Olympiad

President Herbert Hoover

Dotty. HT.

Another 1932 sensation. The color of the bud reminds one of Rev. F. Page-Roberts, while the bronze tint remains in the open bloom. A Rose of rare beauty.

No. 1 plants, \$1 each

Autumn. H.Pern.

The coloring of the closed bud is absolutely unique in Rosedom—crown orange, passing to chestnut—"burnt sienna," as the Italian Titian would define it. The open bloom is orange, blended with shades of flesh-pink and salmon. Buds are solitary on long, strong stems. Continuous bloomer; fine cut-flower.

No. 1 plants, \$1 each

Barbara Richards. HT.

Flower large, full, well formed, very fragrant, corn-yellow and buff, flushed pink. A very beautiful Rose on a strong, healthy plant. (See color illustration on 4th cover.)

No. 1 plants, \$2 each

Daily Mail Scented Rose. HT.

Dark velvety crimson. Won the coveted *Daily Mail* prize for unusual perfume.

No. 1 plants, \$1.50 each

Romance. H.Pern.

Latest improvement on Souvenir de Claudius Pernet, and notable for the absence of the objectionable black heart. The bud has markings of orange on yellow, while the open bloom of good form is of the well-known sunflower-yellow of Claudius. Delicate perfume adds to its beauty. The foliage is unusually healthy for the type, and the plant is robust.

No. 1 plants, \$1.50 each

Aroma. HT.

As the name indicates, it has a refined perfume. The crimson bud develops into a well-formed bloom of a scintillating scarlet-red—a rather rare color in Roses. The petals are rounded, perfectly arranged, and stand upright, giving the illusion of fullness without objectionable crowding. Plant vigorous, healthy, with dark green foliage.

No. 1 plants, \$2 each

Sunkist. HT.

The name was suggested by the ripe "Sunkist" oranges, which are the color of the bud and bloom. A cut-flower variety *par excellence*, as the bloom is borne singly on a long, erect stem, with ample foliage, and is sweetly scented. The plant is robust, fairly tall-growing, and is seldom bothered by the usual Rose troubles.

No. 1 plants, \$2 each

President Herbert Hoover. HT.

An outstanding Rose of great popularity. Large, long-pointed bud; flower large, double, very lasting, medium orange-yellow, borne singly on long, strong stem. This famous Rose is moderately fragrant. Growth very vigorous; free bloomer. Winner of three gold medals.

No. 1 plants 75 cts each

Editor McFarland. HT.

Since 1931, when it was introduced, this has been one of the outstanding new Roses. In general habit of growth it resembles Radiance, but the color is a much deeper and richer pink, slightly suffused with yellow. The plant is strong-growing and the foliage is practically immune to disease. Its long and consistent blooming habit adds to the value of this variety.

No. 1 plants, \$1.50 each

Roslyn. HT.

Still one of the favorite yellow Roses. A 1929 prize-winner which has never lost its great popularity. Flower large and double, borne singly on long, strong stem. Bud orange-yellow, opening to full golden yellow, with deep orange on back of petals. Extremely lasting; slightly perfumed.

No. 1 plants, \$1 each

Olympiad. HT.

One of the prettiest Roses introduced during 1930, and a gold medal winner. Buds fiery orange-red, with gold base, opening to a beautiful cerise-scarlet with gold center. Foliage deep green, very healthy.

No. 1 plants, \$1.25 each

Charles P. Kilham. HT.

Flower large, finely shaped, faintly tea-scented, brilliant Oriental orange-red, suffused glowing scarlet, fading to a brilliant Lincoln red in the flower. Growth vigorous, bushy, upright. Another gold medal winner.

No. 1 plants, 75 cts. each

E. J. Ludding. HT.

Flowers earmine-pink, with coral-red and salmon shadings. Very robust grower, and never out of bloom. Extremely hardy. Specially recommended for "hard-to-grow" territories. A gold medal winner.

No. 1 plants, \$1 each

Leonard Barron. HT.

Result of crossing Schoener's Nutkana and a Hybrid Tea Rose, and while a Hybrid Tea in appearance, is extremely hardy. Mammoth blooms often 6 inches across; very full, salmon with glow of amber; wild Rose perfume. Always in bloom. 1932 gold medal in France.

No. 1 plants, \$1.50 each

Mrs. Sam McGredy. H.Pern.

Large, fairly double bloom of orange-salmon with a suffusion of gold. Vigorous, healthy plant. One of the best of the new tribe.

No. 1 plants, \$1.50 each

William Orr. HT.

A sensational crimson Rose from England which was received with enthusiasm in 1930 and 1931 because of its perfect form and intense perfume. We think a great deal of it. (See color illustration on first cover.)

No. 1 plants, \$1.25 each

Syracuse. HT.

Large, very double, crimson-scarlet flowers on long stems. Plant upright and vigorous. Named for the city of Syracuse.

No. 1 plants, \$1.25 each

E. G. Hill. HT.

Introduced in 1929 and at once became popular in American gardens. For intensity of color it is not surpassed by any other Rose. Bud very beautiful; flower immense, dazzling scarlet, shaded to a deeper pure red as it develops, but never showing purple, borne on a long stem. A red Rose of lasting beauty. Growth vigorous; very free bloomer.

No. 1 plants, 75 cts. each

Joanna Hill. HT.

Bud very large, long-pointed (like Sunburst); flower large, semi-double, full, very lasting, moderately fragrant, darker yellow than Sunburst, borne singly on long, strong stem. Growth vigorous, upright; profuse bloomer. Introduced in 1928. Has been grown in all parts of the country and proved a desirable yellow Rose.

No. 1 plants, 75 cts. each

Essence. HT.

The biggest selling red Rose we had during the spring of 1933. "Double Etoile de Hollande" would perfectly describe this master Rose. Perfectly formed, velvety crimson buds and large blooms cover the bush in continuous succession. The name bespeaks the delightful perfume of "Attar of Roses." Very hardy.

No. 1 plants, \$1.50 each

Lord Charlemont. HT.

Bud medium size, very long-pointed; flower large to very large, double, high-centered, perfectly shaped, unusually lasting, extremely fragrant, clear deep crimson. Growth moderate, bushy; abundant, continuous bloomer all season. In many respects it resembles the older Gen. MacArthur, but we believe it a better Rose.

No. 1 plants, 75 cts. each

Ville de Paris. HT.

An offspring of Souvenir de Claudius Pernet, which it resembles, and with which it vies for honors. Bud ovoid; flower large, full, double, globular, sunflower-yellow, slightly tinted orange, deeper in center and at base, lasts long in sun, borne on long, strong stem. Growth vigorous. Hardy. Gold Medal winner 1925.

No. 1 plants, 75 cts. each

Rev. F. Page-Roberts

Talisman. HT.

Another popular Rose, and one that is in great demand by Rose-lovers. Winner of at least four gold medals. The medium-sized bud is long-pointed and richly colored; the flower is of good size, double, high-centered, very lasting, extremely fragrant, golden yellow and copper, borne singly on a long stem. Foliage abundant. Vigorous, upright plant; free bloomer.

No. 1 plants, 50 cts. each

Rev. F. Page-Roberts. HT.

Here is a Rose of outstanding beauty that we are glad to offer to the Rose-lover. Bud large, long-pointed; flower large, double, full, high-centered, lasting, extremely fragrant, yellow with red shading, tinted buff in the bud stages only. Several flowers are clustered on a long, strong stem. Growth vigorous, bushy; continuous bloomer.

No. 1 plants, 75 cts. each

Miss Rowena Thom. HT.

Another winner of many gold medals during 1927. Bud very large, long-pointed, opens perfectly; flower enormous (6 inches across), full, double (40 to 57 petals), a blending of fiery rose and rose-mauve, together with old-gold; center rose, washed with gold; borne on a very long, strong stem. Growth vigorous, upright; continuous bloomer all season

No. 1 plants, 75 cts. each

Hadley. HT.

Another gold medal winner. Flower large, well formed, double, very full, intensely fragrant, rich crimson, varying to deep velvety crimson, borne on stem of average strength and length. Growth vigorous; free, continuous bloomer. This beautiful Hybrid Tea has been very popular ever since its introduction in 1914.

No. 1 plants, 75 cts. each

Feu Joseph Looymans. HT.

A Rose of outstanding beauty that will be admired in any garden. Apricot and old-gold.

No. 1 plants, 75 cts. each

Golden Dawn. HT.

Here is another beauty for those that love lemon-yellow Roses.

No. 1 plants, \$1 each

Heinrich Wendland. HT.

A Rose of distinct beauty. It is of Talisman type, but darker in color.

No. 1 plants, \$2 each

Hollywood. HT.

Sport of Premier. Flower of medium size, dark rose-red, veined darker.

No. 1 plants, 75 cts. each

J. C. Thornton. HT.

A 1926 creation, and has been a wonderful producer since its introduction. A beautiful scarlet-red Rose.

No. 1 plants, \$1.25 each

Joyous Cavalier. HT.

A beautiful crimson Rose of the tall-growing type.

No. 1 plants, \$1.25 each

Mevrouw G. A. van Rossem. HT.

Brownish yellow flowers, strongly shaded with copper-pink.

No. 1 plants, 75 cts. each

Mme. Edouard Herriot. HT.

The original of all the bright orange-pink Roses.

No. 1 plants, 75 cts. each

Mrs. Pierre S. du Pont. HT.

Reddish gold buds and yellow flowers.

No. 1 plants, 75 cts. each

Schwabenland. HT.

Large, cerise-pink blooms borne singly on long stems.

No. 1 plants, 75 cts. each

Sensation. HT.

Handsome buds; large, deep blackish maroon blooms, highly perfumed.

No. 1 plants, 75 cts. each

Vaterland. HT.

Flowers large, blood-red, with coppery reflexes.

No. 1 plants, 75 cts. each

General List of Hybrid Tea Roses

The Hybrid Tea Roses in this list are not surpassed by any grower. The bushes are all field-grown, low-budded, produced in the North, and guaranteed to be No. 1 plants. We do not sell bench Roses, hothouse-grown plants, or own-root plants. Because of our large output we are able to make a special offer on the varieties here named.

Your Selection of any variety of the 34 Roses here named for 50 cts. each

American Beauty. Crimson-carmine.
Los Angeles. Coral-pink.
Red Radiance. Red.
Souvenir de Claudius Pernet. Yellow.

Betty Uprichard. Salmon-pink.
Briarcliff. Silvery rose-pink.
Duchess of York. Pink and gold.
Kaiserin Auguste Viktoria. White.
Etoile de Hollande. Bright red.
Mme. Butterfly. Bright light pink.
Georg Arends. Soft pink.

Standard Roses (Rose Trees)

All first-quality stock, everblooming, and fully guaranteed to be true to name and color, and will grow 5 to 6 feet high. Roots packed in moss, wrapped, ready for planting, shipped **express collect**. These trees must be ordered early in the spring for early planting, and they must be planted while dormant for best results. We do not care to make shipment of this item after May 15. Will live for years with proper care. Full directions with each one.

Price: Any of the varieties listed, express collect, \$2 each

Rev. F. Page-Roberts. Yellow with red shading.
Betty Uprichard. Salmon-pink.
Talisman. Golden yellow and copper.
Francis Scott Key. Dark Tyrian pink.
Mrs. Aaron Ward. Indian yellow.
Ville de Paris. Sun-yellow.
Kaiserin Auguste Viktoria. Snowy white.
Pink Radiance. Pink.

E. G. Hill. Dazzling scarlet.
Margaret McGredy. Orange-scarlet.
Briarcliff. Pink.
Gruss an Teplitz. Red.
Dame Edith Helen. Pink.
Joanna Hill. Yellow.
Etoile de France. Red.
President Herbert Hoover. Medium orange.

Moss Roses

In this class we carry four varieties. Plants are low-budded, field-grown.

Blanche Moreau. White.
Crested Moss. Pink.
Henri Martin. Red.
White Moss.

No. 1 plants, 50 cts. each

Dwarf Polyantha or Baby Roses

We carry 26 different varieties of Baby Roses and shall be happy to send you a complete list and to give you special rates on large quantities.

Single plants, No. 1 grade, 50 cts. each

Potted Roses

Almost any variety of Roses named in this list can be furnished as a potted plant for delivery in June, provided the order is placed not later than March 15. For such potted Roses we make an extra charge of 25 cents above the retail price listed in this Catalog. Potted Roses are shipped by express, purchaser to pay transportation charges.

Everblooming Climbing Roses

New Golden Climber

Plant Patent No. 28

Mrs. Arthur Curtiss James. The newest of all Climbers. The blooms have the Hybrid Tea quality and type, and usually are carried on stems 18 inches or more in length. Blooming in June, a second burst of bloom may be expected in late summer, although the plant is not considered an everbloomer. The growth is strong. Plants will withstand extremely low temperature. (See color illustration on 4th cover.)

No. 1 plants, \$2 each

Blaze

Plant Patent No. 10

A glorified Paul's Searlet Climber. The flowers are medium size, semi-double, brilliant scarlet, and slightly fragrant. The first year the blooming season is likely to be rather short, but after the plant is well established it becomes an everbloomer.

During the spring of 1933 more plants of **BLAZE** were sold than of any other Rose variety. **BLAZE** must be purchased from firms authorized by the patentee to sell plants. We have this authority. Be sure your plants are purchased from a reliable dealer who will guarantee the plant to be the Everblooming Blaze.

No. 1 plants, \$2 each

Primrose

A new Rose originating in France that has been enthusiastically received in this country. Flowers are canary-yellow, semi-double or full double, and borne in great profusion. The plant is very hardy and is likely to become one of the most satisfactory yellow Climbing Roses for the North.

No. 1 plants, 75 cts. each

Mixed Gladiolus Bulbs

We offer a very select mixture of Gladiolus Bulbs at specially reduced prices. It is made up of the finest varieties, including the following:

Golden Measure	Mary Piekford
Mrs. F. C. Peters	Searlano
Mrs. Francis King	Souvenir
Mrs. Frank Pendleton	The Vamp
Chicago White	E. J. Shaylor
Prince of Wales	Halley
Panama	Wilbrink
Chicago Salmon	Joe Coleman

Also other well-known sorts

Price, in lots of 25, \$1.25; in lots of 50, \$2;
in lots of 100, \$3.50

New Dawn

Plant Patent No. 1

A sport of the noted Rose, Dr. W. Van Fleet. The flowers are medium size, full double, blush-pink, and slightly fragrant. The blooms are borne, both singly and in clusters, on a long stem, and are produced freely all summer. Plants will grow from 15 to 20 feet high.

No. 1 plants, \$1.50 each

Scorcher

An Australian Rose that has created a sensation both in America and in Europe. Large, handsome, vermilion flowers cover the plant in the early blooming season, with a fair repetition of bloom in autumn.

No. 1 plants, \$1.50 each

Allen's Fragrant Pillar

An Everblooming Climber (Allen, 1930) with large, full satiny pink blooms carried over a long season. We consider it an improved Staechelein. The plants are hardy and do not mildew.

No. 1 plants, \$2 each

We also offer the following Climbers and Ramblers. Every one is **guaranteed to be a No. 1 plant. 50 cts. each.**

Mary Wallace. Pink.

Emily Gray. Yellow.

Dorothy Perkins. Shell-pink.

Paul's Scarlet Climber. Red.

Glenn Dale. Lemon-white.

American Beauty. Rose-pink.

Silver Moon. White.

Gardenia. Yellow.

Dr. Huey. Crimson.

Veilchenblau (Blue Rambler).

We do not list all the Climbers and Ramblers we carry, but we can supply any that are grown. Ask for quotation.

Hardy Lilies

Six of the finest Lily bulbs are carefully packed in a special box. The Collection contains 1 bulb each of the following:

Lilium auratum (Gold-banded Lily).

White, spotted crimson, with yellow band.

L. giganteum. White, striped red-purple.

L. regale. White, passing to canary-yellow.

L. speciosum rubrum. Deep red, with green stripe.

L. tigrinum (Tiger Lily). Orange, spotted black.

L. umbellatum. Red, flushed orange.

Box of six bulbs, \$1.25, postpaid

Hardy Plants

All our perennial plants are of large size, and dug fresh the same day they are shipped to you. This quick service insures their continued growth and your perfect satisfaction. The plants are packed in moist-proof paper, with the roots covered with damp moss, a method that insures safe arrival, even to the most distant points. These extra-fine plants should not be confused with much smaller plants offered at a lower price.

30 cts. each; \$3 per doz.; \$25 per 100. Parcel Post or Express charges paid by us

Aquilegia (Columbine). Mixed colors.
Coreopsis grandiflora. Yellow.
Delphinium Hybrids. Mixed colors.
Dicentra (Bleeding-Heart).
Digitalis (Foxglove).
Eupatorium (Glorified Ageratum).
Funkia variegata. Green and yellow-foliaged border plants.
Funkia subcordata. White September Lily.
Gaillardia (Blanket-Flower).

Hibiscus (Mallow Marvels).
Iris, Japanese Hybrids.
Iris, German.
Phlox. Assorted colors.
Pyrethrum (Painted Daisies).
Physalis (Chinese Lantern).
Rudbeckia, Golden Glow.
Shasta Daisy. Large white Daisy.
Tritoma (Red-Hot Poker).
Veronica. Blue.
Hollyhock Hybrids.

New White Delphinium

The very latest introduction in the Larkspur family, and will be offered this year for the first time. The pure white flowers are borne on long, straight stems. A new plant that you certainly should add to your collection of Delphiniums.

\$1.50 each, postpaid

Peonies

This is a special collection of three popular varieties in three colors—red, pink, white. Each root has six or more eyes. Can be depended on to be strong and healthy and when well established will give quantities of flowers.

Box of three roots, \$1, postpaid

Amaryllis

These Hybrid Amaryllis are outstanding house-plants, surpassing all others for beauty and bloom. We offer only giant-size bulbs, shipping nothing under 5 inches in diameter.

50 cts. each; \$5.50 per doz., postpaid

Dahlias

This year we are able to offer two collections, six varieties each, of the most popular Dahlias introduced during the past few years.

Collection No. 1. Contains one tuber each of Jane Cowl, El Toreador, Ellinor Vanderveer, Jersey's Beauty, Sagamore, and Snowdrift.

Box of six roots, \$1.25, postpaid

Collection No. 2. Contains one tuber each of Jersey's Beauty, Jersey's Beacon, Jane Cowl, Mrs. I. de Ver Warner, Sagamore, and Calvin Coolidge, Jr.

Box of six roots, \$1.25, postpaid

Any of the varieties here named may be purchased separately at 35 cts. each. We carry many other varieties varying in price from 35 cts. to \$5 per tuber.

Tuberoses

A summer flower of unusual purity. The flowers are snowy white, with a waxy texture. 60 cts. per doz., postpaid.

Cannas

Showiest of all summer bedding plants. Easily grown and lasting.

Candelabra. Orange-scarlet. \$1 per doz.

City of Portland. Pink. \$1 per doz.

Crimson Bedder. Crimson. 75 cts. per doz.

Eureka. White. 80 cts. per doz.

Hungaria. Deep rose. 85 cts. per doz.

King Humbert Red. 80 cts. per doz.

King Humbert Yellow. Golden yellow, spotted red. 80 cts. per doz.

Mme. Crozy. Vermilion-scarlet. 75 cts. per doz.

Mrs. Alfred Conard. Salmon-pink. 90 cts. per doz.

Richard Wallace. Yellow. 75 cts. per doz.

Rosea Gigantea. Rose-pink. 90c. per doz.

The President. Red. 80 cts. per doz.

Orange Bedder. Bright orange, suffused with scarlet. 80 cts. per doz.

Venus. Bright rose-pink; cream border. 75 cts. per doz.

Wintzer's Colossal. Scarlet. 75c. per doz.

Wyoming. Orange flowers. 75 cts. per doz.

Prices quoted above are prepaid.

Each root has from 2 to 3 eyes.

Tuberous Begonias

For summer bedding in semi-shaded locations, Tuberous Begonias are unsurpassed. They grow readily, require little care, and bloom very freely. We have five different colors—White, Red, Pink, Orange, Yellow—offered at \$1.50 per doz., postpaid.

Shrubs and Trees

For Landscapes and Gardens

FLOWERING SHRUBS. We carry a comprehensive list of Flowering Shrubs, including more than 250 different varieties, but in the limited space of this price-list we cannot name them all. We shall be glad to send you a list and to quote reasonable prices on your needs.

EVERGREEN TREES. We are able to supply all varieties for ornamental purposes or for lining out. We have shipped Evergreens to some of the largest and finest estates in the country, and our customers have expressed perfect satisfaction with our service.

SHADE TREES. We can supply more than a score of the popular shade trees used in landscape planting. Our collection includes Ash, Beech, Birch, Carpinus, Catalpa, Japanese Flowering Cherry, Flowering Crab, Dogwood, including the popular red-flowering variety, Elm, Horse-Chestnut, Linden, Locust, Magnolia, Maple, Mountain-Ash, Mulberry, Oak, Plane, Poplar, Cereis (Red-Bud), Crataegus (Thorn), Tulip Tree, Willow. Because of rulings by the U. S. Department of Agriculture and various States we do not here quote prices on any of these trees, but will be glad to give you full information on request.

FRUIT TREES. We can make prompt shipment of any varieties of standard Apples, standard Pears, dwarf Pears, dwarf Apples, Cherry, Pear, Plum, Peach (1-yr. buds), Quince, and Grape-vines. The same rules apply to fruit trees as to shade trees, and we shall be glad to give you full information on request.

AZALEAS. Here again restrictions make it impossible to quote prices. However, our assortment is complete and we shall be happy to give you information on request.

Butterfly Bush

Ile de France, Reddish Purple

The latest novelty. A rich Rosolane purple (Ridgeway) Butterfly Bush, far more striking in color than the older variety. Roots packed in moss and fully guaranteed. \$1 each.

Climbing Hydrangea

No vine that we know of has quite the same beauty of foliage or abundance of fragrant, lacy flowers as this charming, refined member of the great and useful Hydrangea family. Its stem is woody and picturesque in winter, clinging tightly to stone and brick work by innumerable aerial roots, hugging a wall like ivy and requiring no tying or trellis.

In June a lacy mantle of flowers overspreads the whole plant and exhales a dainty fragrance that pervades the whole garden. It forms flat clusters of exquisite daintiness. This is a rare plant which has been the treasured pet of horticultural connoisseurs for many years, and one of the finest specimens in America was the great vine which the late Dr. Sargent, of the Arnold Arboretum, enjoyed and cared for in Boston. We are very proud to be able to offer this wonderful Climbing Hydrangea this year at this low price. \$1.50 each.

Climbing Vines

Guaranteed two-year-old plants, each packed in moss in our famous Glenco Carton, ready for planting. Selected stock of the most hardy varieties.

Ampelopsis Veitchi (Boston Ivy). 50 ets. each.	Clematis, Mme. Edouard Andre. Red. 75 ets. each.
Celastrus scandens (American Bittersweet). 50 ets. each.	Honeysuckle, Hall's Trumpet. Scarlet trumpet. 50 ets. each.
Clematis Jackmani. Purple. 75 ets. each.	Polygonum Auberti (Chinese Matrimony Vine). White. 75 ets. each.
Clematis paniculata. White. 50 ets. each.	

Garden Accessories

Shipped by freight collect

Humus. 50 lbs. \$1.25; 100 lbs. \$2.	Peat Moss. Garden-size bale, \$1.25;

Insecticides

The Spraying Materials and Insecticides here listed have been thoroughly tested and will give satisfaction under all conditions. In our long experience we have tried many Insecticides, and can safely recommend those that are here listed.

Do not ruin your plants with sprays or fertilizers that you know nothing about. We know from experience based on roots and plants that have been returned to us for examination, why such plants failed to grow. Seldom does the plant fail—it is the fertilizer or the spray that causes the damage.

This spray material will kill aphids (plant-lice) without injuring the plant or turning the foliage yellow. It is invisible, non-poisonous, and does not contain nicotine sulphate. Readily prepared by mixing with 60 times its volume of water.

PRICES

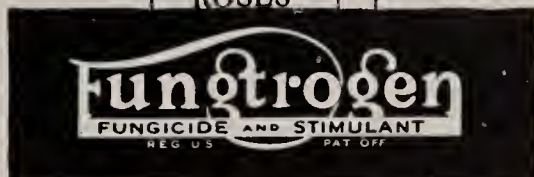

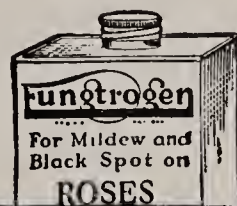

2 ozs.....\$0.50	2 lbs.....\$3.50
½ lb..... 1.25	4 lbs..... 6.50
1 lb..... 2.25	12 lbs.....15.00

Kills leaf-eating insects. Quickly destroys caterpillars, slugs, and other insects that damage the foliage of plants in the garden or the greenhouse. It is a reliable protection and repellent against Japanese beetle and similar insects.

TRI-GEN

Combined Spray Treatment

Fungicide—Insecticide—Plant Stimulant

Complete Protection against Plant Insects and Diseases

Mildew and black-spot are easily controlled with the Tri-ogen Spray Treatment, which gives complete protection against all diseases and insect pests. It is easily applied and also acts as a plant stimulant—producing vigor in growth with resultant luxurious blooms. Tri-ogen Spray Treatment applied weekly, from early season until late frost, makes it possible for the amateur to achieve success comparable, in many cases, to the professional.

Tri-ogen was officially adopted for the exclusive protection of the garden of 6000 Roses at the Century of Progress, Chicago World's Fair.

Glenco Mineral Fertilizer

This is a Fertilizer which we can recommend highly to our customers. It is an honest product and used by us exclusively. The wonderful results we have obtained by its use make us enthusiastic in its praise. It will not burn, is economical to use, so easy to apply that a child can perform the task. Prices include delivery prepaid. 10-oz. can 18 cts.; 5-lb. bag 50 cts.; 10-lb. bag 85 cts.; 25-lb. carton \$1.75; 100 lbs. \$6. Use 1 pound to each 100 square feet of ground.

Golden Climber

Mrs. Arthur Curtiss James

Plant Patent No. 28

No color picture can do justice to this superb Climbing Rose. While it is a newcomer, it has all the promise of becoming the foremost hardy yellow Climbing Rose—in fact, it holds this position today. In many respects the plant resembles Mary Wallace and has all the good qualities of that favorite variety. Good yellow climbers are very, very rare; therefore Golden Climber has been heartily welcomed everywhere.

COPYRIGHT 1933

Barbara Richards

Receiving, in 1930, the Mayor's Cup for the best Rose at Southport, England, this variety at once became popular with English and American growers. The color is a blending of pink, maize-yellow, and buff. Flowers large, freely produced on strong plants. Foliage clean, and resistant to mildew.
